AFFIDAVIT FOR PROBABLE CAUSE

I **Detective Sgt. Drew**, an officer with the Huntingburg Police Department being first duly sworn upon his oath, states under the penalties of perjury, that he/she believes and has good cause to believe that on or about the **14th** day of **July**, 20 **21 through the 11th day of February 2023** at and in the County of Dubois, State of Indiana, the above named person committed the crime(s) of **Possession of Child Pornography** in violation of I.C. **35-42-4-4** and the affiant's beliefs are based on the following information, facts and circumstances, to-wit:

On Saturday February 11, 2023, at approximately 2102 hr I, Detective Sgt Drew with the Huntingburg Police Department, received a phone call from Patrolman Cody Shinn, an Officer with the Huntingburg Police Department. Officer Shinn advised me that he was called to [REDACTED] in reference to a male subject, Leo Flores, that has child pornography on his phone. Officer Shinn advised that Leo's wife, [REDACTED], found the child porn on her husband's phone. Officer Shinn advised that [REDACTED] then called Leo's mother, [REDACTED], and told her what she had found. [REDACTED] then called Dubois County Dispatch to report her son. Officer Shinn described that when he arrived to the residence, [REDACTED] still had Leo's phone and showed Officer Shinn a few videos that she found. [REDACTED] then proceeded to play the videos for Officer Shinn. Officer Shinn described to me that in the videos he saw young female children that were nude. I advised Officer Shinn to seize Leo's phone and put it into airplane mode. I told Officer Shinn I would go on duty and report to their location.

I arrived at [REDACTED] at approximately 2130 hrs. I spoke with Officer Shinn and Deputy Cummings, a Deputy with the Dubois County Sheriff's Department. Officer Shinn informed me that he seized Leo's phone and that Leo was intoxicated; he tested .25 on a portable breath test. I gave a faraday bag to Officer Shinn and asked him to put Leo's phone inside of it to secure it; the phone was a Samsung with a case that had a Mexican flag on it. Officer Shinn advised that [REDACTED] and [REDACTED] were inside the residence and Leo was outside Officer Meyer and Deputy Hemmer. Deputy Cummings advised me that he read Miranda to Leo and Leo acknowledged that he understood his rights. Deputy Cummings advised that after he acknowledged his rights, Leo kept telling Deputy Cummings to take him to jail.

Deputy Cummings asked him why and Leo responded with because you guys found everything and I'm fucked. Deputy Cummings then asked Leo for consent to search his person and he agreed. During the search, Deputy Cummings located approximately a gram of a white powdery substance inside Leo's wallet. Leo told Deputy Cummings that the white powdery substance was cocaine. I was also informed that Leo's and [REDACTED] small child was inside the residence and that they also have a five-year-old daughter. I asked Officer Meyer to contact Department of Child Services and request immediate assistance.

I then went inside the residence and spoke briefly to [REDACTED] and [REDACTED]. I obtained their information along with phone numbers. [REDACTED] also provided the information for their two kids; Juvenile 1 DOB: [REDACTED] male, and Juvenile 2 DOB: [REDACTED] female. Throughout the rest of this narrative, I will refer to the male juvenile and J1 and the female juvenile and J2. I informed [REDACTED] that due to the nature of the accusation, DCS would be responding to the house. I asked both of them if they could come down to the Police station for a formal interview and they agreed. We decided that [REDACTED] would come to station first, and then [REDACTED] would come down after. [REDACTED] advised that she would drive herself. Before we left the residence, I spoke to Officer Cummings and I advised him that I could not interview Leo tonight in reference to the child pornography due to his state of intoxication. Deputy Cummings advised that he was going to take Leo to jail for possession of cocaine. He then left to transport Leo to the Dubois County Security Center. I left the residence to meet [REDACTED] at station for a formal interview.

At approximately 2234 hrs I met [REDACTED] at Station. We went into our interview room and I activated the audio and video recording. The following is paraphrased information from my interview with [REDACTED]:

- [REDACTED] advised that Leo came to her house, (REDACTED), today at around 1130 hrs to hang out and drink with her husband. She advised that [REDACTED] came over sometime after noon.
- She described that Leo got extremely intoxicated so [REDACTED] decided it was time for her and Leo to go home. [REDACTED] and Leo then left to head back home to Huntingburg.
- She described that some time after they left, she overheard her daughter, [REDACTED], talking on the phone with [REDACTED]. [REDACTED] asked what was going on and [REDACTED] told her that [REDACTED] found child porn on Leo's phone.
- [REDACTED] then left and headed to [REDACTED] house. Once at [REDACTED] house, [REDACTED] showed [REDACTED] some of the videos she found on Leo's phone. [REDACTED] described that the first video she saw was of a 6- or 7-year-old girl. She described that the young girl had her hand in her pants and someone off camera was giving her verbal directions.
- The next video [REDACTED] watched was of the same 6- or 7-year-old girl. In this video the young girl had her legs open and her vagina was exposed.
- [REDACTED] described that [REDACTED] showed her several videos from Leo's phone and she estimated that the ages of the girls in the videos ranged from 5 to 16 or 17.
- She described that the videos were saved in an app called "MEGA" within Leo's phone; through my investigation, I have learned that MEGA is a cloud storage and file hosting service.
- [REDACTED] described that she loves her son but he messed up by having child porn and she knew she needed to call

the police so he could get the help he needs.

I thanked [REDACTED] for talking with me and then we both left and headed back to [REDACTED] house.

When I arrived back at [REDACTED] house, DSC worker Logan Humphrey was inside talking to [REDACTED]. Logan advised that [REDACTED] agreed to a forensic interview for J2 at a later date. Once Logan finished talking with [REDACTED], I asked [REDACTED] if there were any other devices in the house the Leo uses or has access to. She explained to me that they recently purchased a new laptop and they also have an older one. I asked her if Leo uses the laptops and she advised he does and asked if I wanted to take them. I advised her that I would seize them for the time being and determine if I'll apply for a search warrant for them. She then retrieved those laptops and gave them to me. One is a black Lenova Flex and the other is a silver Acer laptop. I then drove [REDACTED] to the Police station for an interview. Once at station, we went into our audio and video recorded interview room. The following is paraphrased information that came from that interview:

- [REDACTED] described that Leo went to his mother's house in Dale around 0930 hrs. [REDACTED] said that she went over there shortly after noon. When she got there Leo was drinking.
- At around 1940 hrs, [REDACTED] said that they left due to Leo being extremely intoxicated.
- On the drive home, [REDACTED] said that Leo passed out in the passenger's seat and she saw his phone hanging out of his pants pocket so she grab it. [REDACTED] described she has caught Leo with pictures of naked women on his phone before so due to trust issues, she took his phone from his pocket; she advised she knows his passcode and it's [REDACTED].
- When they arrived back at home in Huntingburg, [REDACTED] sat in the car and started going through it while Leo was passed out; J1 was in the backseat sleeping as well.
- She described that she found an app in his phone called MEGA. She opened the app and saw a username/email that was [REDACTED]; she described that there were 4 numbers after [REDACTED] followed by @gmail.com but couldn't recall the numbers. She described that she found a "File" button and clicked on it. Within the file tab, she found pictures and videos and at first thought they were just regular porn until she started clicking on them and videos started playing
- The first one she played was of a little blonde girl wearing a pink outfit with someone in the background speaking a foreign language. She said it appeared the girl was between 6 and 8 years old.
- Another video she opened was of a girl, age 6-8 wearing a skirt holding a toy or candy, she described you could see up the little girl's skirt.
- Another video she viewed was of a girl who was approximately 16 and was completely nude.
- She advised that she opened another video and it was a closeup of a young bare vagina. She described that a penis was penetrating it. I asked how she knew it was a young girl's vagina and she said because she has a young daughter and everything down there looked small. She stated the labia was shorter.
- [REDACTED] described that another video she played showed a little girl with bare breast. [REDACTED] described that this girl was flat chested with no breast at all.
- [REDACTED] described that she saw that there were 267 videos on his account in the MEGA app.

- [REDACTED] estimated that she saw 7 or 8 of the 267 videos and those all contained young children that were either nude, performing a sexual act, or showing their underwear.
- I asked [REDACTED] if Leo's phone is solely his and she said it is. She described that he won't even let her touch it.

I thanked [REDACTED] for talking to me and had a Patrol Officer take her back home.

I came into work on Monday, February 13, 2023 at approximately 0800 hrs and received information that Leo was out of jail. I needed to interview him so Huntingburg Police Detective Beier and I, went to [REDACTED] in an attempt to locate Leo and see if he would be willing to come to station for an interview. He was not home so I contacted [REDACTED] to see if she knows where is. [REDACTED] described that he is in Dale at his mom's but he does want to talk to me so she will call him. [REDACTED] also informed me that [REDACTED] was wanting to talk to me so I called her. During my conversation with [REDACTED], she stated that she has talked to Leo since he's been out of jail. She described that Leo told her that he downloaded a movie from someone on the MEGA app but didn't know that it contained illegal videos. [REDACTED] stated that she thinks she may have made a mistake by contacting the police because Leo told her someone must have planted a virus within the movie he downloaded and it must have contained child porn. She described that she researched the MEGA app and said it's notorious for child porn viruses. A short time later, [REDACTED] called me back and advised that Leo is leaving Dale and is enroute to station to speak to me.

At approximately 0910 hrs, Leo arrived at the Huntinburg Police Station. I introduced myself and thanked him for coming in to talk with me. We then walked to the audio and video recorded interview room. I asked Leo for his full name, DOB, address and contact information. The email he provided me was [REDACTED]. I then asked Leo if he speaks good English and if he understands English. He said he does. He also stated that he can read and write in English. I then got out an advice of rights form and that was in English and asked Leo if he would rather me get one that is in Spanish. He said the English one is for and that he doesn't read Spanish well. I then proceeded to read the advice of rights form to Leo. Once finished, I asked Leo if he understood everything that I read to him. He stated he understood it. I then gave the paper to Leo and asked him to read over it and to let me know any questions he may have. I read over it and signed it acknowledging that he understood his rights. The following is paraphrased information from my interview with Leo:

- I asked Leo why he thinks I wanted to talk to him and he described that he figures it's because of the cocaine he was caught with.
- I asked Leo what kind of phone he has and he said a Galaxy Samsung 22. He described that he has a case with the Mexican flag on it. I asked Leo if the phone solely belongs to him and he said it does. I asked if he has ever let someone borrow his phone, or if he's ever lost or had his phone stolen and he said no to all of those questions.
- I then explained to Leo that I was investigating that child pornography was located on his phone by his wife. At this time, Leo denied knowing that child porn was on his phone. His body language was closed off during this conversation which I read as he wasn't being forthcoming and withholding information.
- I asked Leo if he has talked to his mom, wife, or anyone reference the child porn allegations since he got out of

jail and he said he hasn't. I confronted him on that lie and informed him that I talked to his mom earlier and she told me she had talked to him reference it. He then explained that he did talk to his mom about it and told her someone must have sent him a file that was a virus that had it on there but he's never seen it. I explained to Leo that I need him to be honest with me and if I ask him a question he doesn't want to answer, then just tell me he doesn't want to answer it instead of lie about. He acknowledged that he understood

- I asked Leo if he has an app on his phone called MEGA. He described that a friend told him about the app about a year and a half ago. He described that his friend told him that you can download movies on it so he installed the app. Leo advised that he's only downloaded three movies using the app; Clifford, Tom and Jerry, and a western movie. He described that he exported the Tom and Jerry movie to a USB and then onto his black laptop.
- When I confronted Leo again reference the supposed child porn on his phone, Leo described that maybe someone sent a virus or something to him that may have contained it but he doesn't know. I asked if he's ever seen a file on the MEGA app besides the three movies he downloaded he said no. I then explained to him that his theory on a corrupt file sent to him containing child porn didn't make sense because he never saw it, however, his wife accessed several videos with the app that contained child porn.
- I again explained to Leo that he needs to be honest because I keep catching him in lies and it's important that we get his side of the story as to why there is child pornography on his phone. Leo's body language started to change during this exchange, he was shifting around in his seat and he appeared to become emotional to the point of almost crying; through my training and experience as an Officer and Detective, I took this as him wanting to be more open and he wanted to get something off his chest.
- Leo then went on to describe that about a year and a half ago, he was chatting with someone on an app called Omegle. The guy he was chatting with asked him if he liked porn and he said he does. The guy told him to download an app called MEGA and then he would send him a link for some porn to his MEGA account. Leo explained that when he downloaded the MEGA app, the unknown guy sent him a file folder that contained about 200 files for what he thought was regular porn. He said he clicked on the first file which was a video and when it started playing he realized it was a young female that was underage and she was nude. He explained that he got out of the app right away and has never opened the app again since then. I asked Leo if he deleted or uninstalled the MEGA app at the time or anytime and he said no. He explained that about six months after this incident he got another phone and the MEGA app, along with many others, transferred to his new phone. He admitted to going back onto the MEGA app to get another movie downloaded. I then confronted him with the fact that he just told me a few minutes ago that he never went back on the app after he opened a video on there and realized it was child porn. I explained to him again about being honest and I explained to him that I can tell that he wants to tell the truth but is just embarrassed by the situation. I explained that people make mistakes all the time and nobody is perfect; while I was telling him all of this, he was nodding his head up and down as if he was non verbally agreeing with me, and starting to get emotional again.
- Leo went on to describe that he watched more than 1 file/video that was inside the zip folder that was sent to him. He advised he watched 10-12 of the videos but the longest he let one play was about 30 seconds. I asked if

the 10-12 videos all contained juveniles that were nude and he said most of them did. He advised there is approximately 200 videos/files within the zip folder.

- I asked Leo if he wanted something to drink and he advised that he did, we took a break and Leo used the restroom and I got him a bottle of water.
- We then continued talking and Leo opened up about the child pornography that was on his phone. He described to me that he has opened up every video/file that was contained within the zip file. He explained that there were 5-10 videos out of the 200 that wouldn't play when he clicked on them, he said he would just go onto the next one when that happened. I asked him out of all the videos that he was able to watch, did they all contain what he believed to be underage females or males. He said they did and only some contained males but he wasn't sure how old the males were because some you couldn't see the face. I asked him that after knowing what the videos were, did he keep going back on different days to access them and he said he did. He advised that he is messed up and needs help with his problems. He also said that he doesn't know why his mind is like this but he would only go back to the MEGA app to view the child porn when he was drunk or high on meth or cocaine.
- I asked Leo that after knowing that all the videos were child pornography, how often did he go back into the app to watch it, he answered with once every couple weeks or once a week. Later in the interview I asked him the same type of questions but asked on how many different days did he watch it, he answered 10-20 different days. He explained that sometimes he would watch the videos in their entirety and sometimes just bits and pieces of them. He described that some videos were young girls having sex with an older male and some were just videos of young girls naked or touching themselves. Leo described that 5 or 6 months ago was the last time he opened the app MEGA and watched the files that contained child pornography. I asked if Leo if his children or wife were ever present when he watched child porn on his phone. He said no and would only watch it at home when his wife and kids weren't there. He made comment that he would get drunk or high and watch it at home when nobody was there.
- I asked Leo what he thought the ages ranged from of the girls he saw in the videos and he described age 10 through 16 or 17.

We then took another break and I decided to ask Leo for consent to search his cell phone and consent to look through the app on his phone called MEGA. I decided to do this based on my email exchanges with MEGA's legal team. I sent them an email asking how I can preserve Leo's account so any possible evidence can not be lost or deleted from it. Since Leo did talk to his mom about the situation and she told me that she researched the app, I was concerned with someone logging into his account from a different device and deleting possible evidence or deleting/deactivating his MEGA account before I had a chance to apply for warrant and possibly obtaining the information/files within his account.

I then returned to the interview room with Leo. I read a consent to search a cell-phone form to Leo. After reading it to him, I allowed him time to read over it and ask any questions if he had any. Leo signed the consent for and advised I can search through his phone and the MEGA app that is contained in his phone. Before I started

searching his phone, I further explained to Leo that at any time during the search he can tell me he wants me to stop and I will stop searching through it. I asked Detective Beier to come into the interview room to be present while I searched the phone. I then conducted a preliminary investigative search of the phone. I used the passcode [REDACTED] and the phone opened. I went straight to the MEGA app and opened it. Once inside I saw the profile name of Leo flores with the email [REDACTED] under it. I then confronted Leo about provided me with the email of [REDACTED] when I asked for it in the beginning of the interview. Leo described that he has two different accounts for MEGA. He explained that he downloaded the three regular movies under the [REDACTED] account, and used the second account with the email of [REDACTED] to watch the other stuff. I then clicked on the "files" tab and a zip folder popped up. The zip folder had information with it and it said it contained 267 files and that it was added to Leo's account on July 14, 2021. The total size of the zip folder showed 3.68 GB. I then opened the zip folder and 267 individual files popped up. Each file was a video. I started at the top and started playing the videos. During the search, Detective Beier asked if he could take a break and step out of the room for a little bit. I told him he could and when I later asked him about it, he described that he couldn't take watching the videos anymore to their nature. I could only make it through approximately 110 videos/files before I needed to stop due the disturbing nature of the videos I just watched. I tried to take brief notes of every video that I watched, however, do to the amount of files I didn't watch each video in it's entirety. The following is a brief description of the videos I did see, each number below represents a separate video:

101. Title was "The Mandatory Bath Scene" showed a young girl that appeared not older than 13, being

penetrated by a male subject in a shower, girl was pre-pubescent.

After going through the first 101 videos, I skimmed through the rest of the files and looked for any that had titles that were in English; it's important to note that a lot of the videos had titles that were in a foreign language or had no title at all. Once I found an English title I stopped and played the video long enough to determine that it was child pornography. Below is a list of those:

1. "2010 r...ck 11yr", video depicted a young naked girl, pre-pubescent, appeared no older than 12
2. "10YO D... low & cum", video depicted pre-pubescent girl, no older than 12
3. "14YO j...y hot" video depicted young girl naked, appeared to be younger than 16, pre-pubescent
4. "Laura10...too" young girl nude, pre-pubescent, didn't appear older than 9 or 10
5. "Sally_tiedup_7yo" Video depicted a frail, female child that was tied and bound with what appeared to be ropes. She was being forcefully penetrated by another individual with objects

Through my training and experience as a police Officer and Detective, coupled with having two small children myself, I can confidently say that out of all the videos I watched from Leo's phone, none of the girls in them were 18 years of age. Furthermore, I would conclude that the average age of the juvenile girls in the videos that were either semi-nude, completely nude, performing sexual acts on themselves or others, or sexual acts performed on them, was approximately 7 through 14 years of age. I don't believe that any of the juvenile girls in the videos were over the age of 16, most were well under the age of 16.

At the end of the search, I informed Leo that he was under arrest for possession of child pornography. He asked what would happen if he was suicidal and I explained that process to him. He stated he wanted to kill himself. He was transported to Memorial ER in Jasper for an evaluation. He was evaluated and cleared for jail. He was transported to the Dubois County Security Center.

I affirm, under the penalties of perjury as specified by I.C. 35-44.1-2-1, that the foregoing representations are true.
